BRIEFING

The **Policy Council on the Right to the city and inclusive territories** has carried out its mandate to place the focus on shifting the narrative around migration, as well as debating views on how to support the realization of the right to adequate housing for all.

For the 2021 mandate, the Policy Council will continue enhancing the shift in the narrative on mobility and migration, contributing to a

paradigm change and implementing the concept of citizenship to that of neighbours beyond borders.

This Policy Council will also push for a stronger agenda on supporting rights in the city, including right to adequate housing for all, cultural rights and digital rights, as a critical tool in leaving no one and no place behind and as the sole antidote to the rise in discriminatory and xenophobic discourse.
